HALL HEARS HIS THIRD SENTENCE

Justice Scott Names a New Date for the Execution of the Murderer.

KILLED HIS SWEETHEART

Extraordinary Efforts Have Been Made by His Lawyer to Save His Life-Says He Is Ready to Die,

For the third time Aaron Hall, the murderer of Mamie Brannigan, heard the sentence of death pronounced upon himself in the Criminal Branch of the Supreme Court to-day. His lawyer, Abraham Levy, has exhausted every legal expedient, and the young man will die in the electric chair in Sing Sing Prison during the week beginning Aug. 4.

week beginning Aug. 4.

The murder for which Hail will be executed was particularly atrocious, and from this circumstance the staving off punishment so long is remarkable. The girl he killed had been his sweetheart. She was employed as a saleswoman in Reinhardt's department store, at Third avenue and highty-sixth street.

Hall walked into the store on May 10,1300, while it was crowded with customers, made his way to the counter benind which the Buannigan girl stood and shot her. He expressed no regret for his crime, and when arrested remarked that she had "got what was coming to her."

He was indicted and placed on trial within a week. Sentence of death was pronounced on Aug. 6 of that year and Hall was sent to the death-house at Sing Sing.

Mr. Levy took the case to the Court

franchise for the operation of a ferry from the foot of Whitehall street to Communipaw, Jersey City. The company for a few years, by an arrangement with the city, has been operating a ferry to Communipaw for the Central Railroad of New Jersey. It now seeks to lease the franchise for a term of twenty-five years.

Albert B. Boardman, who appears for the railroad, said the city would be a gaingr by the operation of the ferry.

None of the members of the Staten Island delegation were opposed to the ferry company getting a franchise so long as it did not give to them the use

of the ferry slip they are now using alongside the Staten Island ferry slip at the foot of Whitehall street.

at the foot of Whitehall street.

David Tyson, ir., a wealthy property owner of Dongan Hills, S. I., acted as spokesman for the Staten Islanders. He said the delegation protested against the application of the New Jersey Ferry Company because they sought the retention of the ferry slip they are now using at Whitehall street. He insisted that the growing needs of tSaten Island required that better transportation facilities be accorded her and that this could only be accomplished by more ferry-boats running to and from the island. He said that if the franchise carrying with it the use of the slip now in use by the applicants at Whitehall street is to be let, that the Staten Islanders knew of a company who would bid it in for twenty-five years, and run it in the interests of the citizens of Staten Island, with landings at Stapleton and Port Richmond on the north and south shores, respectively.

It was finally agreed to amend the

Whitehall street, or at some point reame," and the matter was left in hands of Commissioner Hawkes.

TAMMANY REVOLT AGAINST REGENTS.

Tammany Hall is on the edge of a storm, and it will break about the heads of the triumvirate at to-night's meeting of the General Committee.

At least a dozen men are ready to start the storm, and besides Messrs.

Mr. Levy took the case to the Court of Appeals, where the decision of the lower court was affirmed. In the mean time the date set for the execution of the sentence had passed and Hall was again condemned to the electric chair. Mr. Levy took the case to the Supreme Court of the United States on the ground that the special jury panel law under which the Hall jury was chosen was unconstitutional.

The Supreme Court upheld the law and remanded Hall to the Supreme Court of the State of New York. Pending the decision the date set for his execution had passed again, making it necessary for Justice Scott to sentence him for the third time to-day.

Hall was brought down from Sing Sing by State Detective Jackson this morning. He looked bright and cheerful when he entered the court-room. None of his relatives was present.

He shook hands with Mr. Levy and thanked him for the efforts that have been made in his behalf.

"I guess I'll have to go this time," he said. "I've had lots of chance to think about it and I am ready to die."

Immediately after sentence was pronounced Detective Jackson hurried Hall to the Grand Central Station and for the Bing Sing Prison, which he will never leave alive.
